

Guar Market Report April, 2018

Guar price finds some strong support near psychological INR 9,000/100kgs mark. High stocks and reports of good Monsoon could keep uptrend limited in Guar. In last fifteen days we have not seen any higher levels in Guar as profit booking set in commodity exchange after the recent uptrend. Normal monsoon predictions by IMD are good for Guar sowing prospects. Here is the IMD forecast link-
<https://timesofindia.indiatimes.com/india/imd-monsoon-forecast-spells-good-news-for-farmers-govt/articleshow/63791806.cms>.

Arrival of Guar seed in local mandis has reached around 9000-10000 bags almost 50% lower from last month. As you know this year Guar seed production was lower than the previous year and as per estimates the production might be 70, 00,000-80, 00,000 bags (100 kgs). Now export of Guar gum has been higher than the previous year therefore the gap between demand and supply will increase versus last year and therefore we remain bullish in guar complex from long term perspective. Guar is also getting support from Crude oil prices. Recovery in crude oil prices could brighten the export prospects keeping long term trend bullish.

As per US data, the US oil and gas rig count has reached to 1007 which are 5 rigs more than the previous week. The government of India has announced MSP of kharif crops to be at least 1.5 times of production cost. This will lead to higher sowing area of Kharif pulses and as a result, the cultivation area of Guar Seed is expected to reduce further—another bullish factor.

As per global organizations, USA will lead in oil production in the year 2018 hence usage of guar gum might remain higher this year. It may be noted that Guar gum is used as drilling chemical and gelling agent in the fracturing process. Strength in crude oil will keep export demand of guar gum quite stable. Consumption of drilling chemicals is increasing with rising crude oil prices. Market report says that guar gum export was 39% higher than last year until February.

As per reports from APEDA, improved export demand of Guar Gum has been noted. This year there is export of Guar Gum around 449,706 MT, 39% increased compare to last year export 361,833 MT during the period between April – Feb 2017-18.

Nectar Lifesciences Releases New-Grade 45-50 Guar Gum for Shale Gas Hydraulic Fracturing

Used as a stabilizing, thickening and suspending agent in drilling fluids today, Guar Gum helps to balance the viscosity levels of the drilling mud. It therefore helps the drilling fluids to move the drill waste from the deepest holes while providing a streamlined operation with reduced friction.

Until now, oil and shale fracking companies have been relying on 35-40 or 40-45 viscosity Guar Gum. Our new product is a very fast and reliable hydration Guar that will be specially used in the stimulation of oil and gas wells with aqueous systems. Its top notch grade guarantees it will deliver the proponents more efficiently into the formations.

Nectar is known for its proprietary homogenous process for washing of Guar spilt, automating the process for hydration of the spilt today. Relying on optimized equipment that controls speed in order to acquire the desired quality, Nectar employs innovative technologies that reduce energy consumption along the way.

Additionally, the Nectar guar facility is food grade GMP certified and approved from the likes of INTEREK, BSI, and ALCUMUS, earning them a spot in India's top 300 organizations today.

We're proud to be a top choice for quality, conscious consumers looking for BRC and USFDA certification. For more information, visit: <http://www.nectarguar.com>

About Nectar:

Nectar Lifesciences is an Indian integrated pharmaceutical organisation with leadership in cephalosporin antibiotics Active pharmaceutical ingredients, finished dosage forms, diagnostic products, empty hard gelatine capsules and agricultural products such as menthol derivatives and Guar Gum.

Nectar started its operations in 1997 and now its annual revenue exceeds 300 million USD.
About Nectar:-

- India's top 300 organization with revenue over 300 million USD
- Dun & Bradstreet D-U-N-S' 86-237-2356
- 13 Manufacturing facilities spread over 400,000 sq m
- Exports to over 50 countries
- Certified Star Trading House by Government of India
